SUMMARY

[GITHUB](#)   [LINKEDIN](#)

I am T.E. student currently enrolled in an Information Technology course at IIIT Pune, With a strong aptitude for problem-solving and optimization. I am expanding my knowledge in DSA and Web Development. Furthermore, I have gained experience in building interactive and scalable web applications. I'm currently exploring Machine Learning (ML). **Looking for an Internship for professional work exposure.**

PROJECTS

E-Commerce Website | Express MongoDB EJS
Mar 2023 - May 2023
[GITHUB](#) [LIVE](#)

- Developed an eCommerce website using Express, MongoDB, and EJS, following the MVC pattern.
- Implemented secure authentication for Admin and Customer, session management, and protection against cyber-attacks (XSS, SQL injection, CSRF).
- Integrated the Stripe payment gateway for real-time transactions.

Video Chat App | React.js Socket.io Tailwind CSS
Jun 2023 - Jul 2023
[GITHUB](#)   [LIVE](#)

- Integrated Socket.IO for real-time communication and video calls.
- Utilized PeerJS for establishing peer-to-peer connections, allowing direct video and audio streaming between users.
- Implemented ReactJS and Tailwind CSS for efficient and Responsive UI.

Google Search clone | ReactJs Tailwind
Sep 2023 - Sep 2023
- Cloned google home and its search features for all , images , videos
- used ReactJs and Tailwind CSS for UI
- used google apis for data
